## Guest Speakers

- Dean Papathomas
  - Congratulations to you all for caring about common affairs and getting involved!
  - Dean Papathomas' job is to create academic events beyond the classroom for as many undergraduates as we can
  - If you have 2/3 groups of students. (we want wide representation), come to Dean Papathomas with your event ideas
  - If you have a club and you want to come up with some activity that can benefit society at large and create camaraderie on Busch campus, that's what the campus deans are for.
  - Some upcoming events:
    - Dancing with the Deans - 11/1 - 8:00 PM doors open - Deans will dance to raise money for people that go hungry and students that need financial aid. \$20,000 was raised last year. We hope to match this goal again, through online donations.
    - 11/6, Wednesday 7:00PM- Magic Illusions and Science - Dean Papathomas will speak and talk about brain research and 3D illusions, as well as someone talking about lightness perception. Illusions will also be presented. What you think you see isn't actually there! Another colleague will talk about her research. Most importantly, a famous magician, Mark Mitton, who is very knowledgeable about cognitive science and how the brain works.
    - Every 2nd Friday of the month - Drinking Responsibly event - you are fed for free, but you can also purchase 1 alcoholic beverage an hour. Drink responsibly but also generate camaraderie on campus!
    - Rocio Castro - see her if you have any issue for students. Next one on Friday Nov. 8th.

## What's on Your Mind?

- If you want anything addressed, please fill out the form!  
"Can PGC get more food at PGC meetings?"

We try to accommodate everybody. We order enough food for 80 people, but we have less than 80 people in attendance tonight. People either leave or take more food than we ask them to. It's hard to order more food, and it is difficult to regulate. Please be considerate with the food!

## Multicultural Affairs Committee

Medical Spanish initiative - started last year, hoping to continue. This year, there will be a restructure with other organizations to focus on specific disease states. For example, working with APhA to create class around Diabetes, and different faculty will come in to teach medical spanish to communicate about diabetes. It would be faculty teaching, and we are interested in collaborating with different organizations. If anyone is interested in holding another professional event, this is a great opportunity. Contact [evapan@eden.rutgers.edu](mailto:evapan@eden.rutgers.edu) for more information.
